SUMMARY

A full-stack software developer with experience in building web applications using **Java, Node.js, Angular, React, and .NET**. Skilled in developing APIs, managing databases, and creating responsive user interfaces. Strong problem-solving abilities with a focus on clean, maintainable code and efficient system design. Continuously learning new technologies and committed to delivering reliable and practical software solutions.

EDUCATION

SRI LANKA INSTITUTE OF INFORMATION TECHNOLOGY

BSc (Hons) in Information Technology Specializing in Software Engineering
CGPA: 3.7 / 4.00

Malabe | Oct 2023 -

- **Awarded three times on the Dean's List for academic excellence.**

ESOFT Metro Campus

Diploma in Information & Technology

Jan 2022 – Jan 2023

- **Merit Pass**

TECHNICAL SKILLS

- **General & Backend:** Java, Node.js, C#
- **Frontend:** React, Angular, HTML, CSS, JavaScript
- **Database Related:** MySQL, MongoDB
- **UI/UX Design:** Figma, Canva
- **Other:** GitHub, API Design, Postman, Jira

PROJECTS

Cake Shop POS System

Nov 2025 – Dec 2025

MERN Stack, Node.js, Express, MongoDB, React, CSS | [GitHub Repository](#) | [Website](#)

A web-based Point-of-Sale system for managing cake shop operations, including product management, barcode-based invoicing, stock control, and payment processing. Designed to streamline sales workflows and reduce manual errors.

- Developed the **Product Management Module**, allowing users to view products, adjust quantities, and add items to the cart.
- Implemented **Barcode Scanning and Invoice Generation**, automatically fetching product details and updating stock in real time.
- Built the **Payment Subsystem** with options for 'Pay Now', including confirmation popups and automatic redirection.
- Integrated **Order History** in user profiles to track purchases and delivery status efficiently.
- Ensured a **responsive, user-friendly frontend** with React and CSS, combined with a robust Node.js/MongoDB backend.

HR Management Dashboard

July 2025 – Oct 2025

MongoDB, Express.js, React, Node.js, RESTful API | [Github Repository](#) | [Website](#)

A full-stack web application developed to streamline human resource operations, including employee management, attendance tracking, payroll, and reporting. Designed to improve HR efficiency and enforce role-based access control.

- Developed **Employee Management Module**, enabling administrators to perform CRUD operations on employee records efficiently.
- Implemented **Attendance Tracking System**, allowing HR to monitor daily check-ins, leaves, and working hours in real time.
- Built **Payroll Management**, automating salary calculations, allowances, deductions, and generating pay slips for employees.
- Designed **Role-Based Access Control**, ensuring secure and appropriate access for admins, HR staff, and managers.
- Created **Reports and Analytics Features**, providing insights on employee performance, payroll summaries, and attendance statistics for data-driven decisions.
- Ensured smooth integration between **backend APIs** and a fully responsive **React frontend** for interactive and user-friendly HR operations.

Personal Portfolio Website

Nov 2025 – Dec 2025

Angular | [GitHub Repository](#) | [Website](#)

A modern, interactive portfolio website developed to present my skills, projects, and professional background. Focused on responsive design, engaging visuals, and seamless user experience.

- Crafted a visually striking portfolio to effectively highlight technical expertise, key projects, and accomplishments.
- Developed a **fully responsive layout**, ensuring optimal display across desktops, tablets, and mobile devices.
- Enhanced performance and usability with a modular component structure, smooth animations, and intuitive navigation.
- Delivered a **user-friendly interface** with organized content, consistent styling, and clear page flow for effortless exploration.

RELEVANT COURSEWORK

- Object-Oriented Programming (OOP)
- User Interface & User Experience (UI/UX) Design
- Database Design and Management
- Data Structures & Algorithm Design
- RESTful API Design and Development
